Name: WWF Organic Coconut Cream

Specification Number: INTSD00001 **Version Number:** 0001

Material Number: **Master:** INTSD00010 **WW:**

Pack Style:

General Requirements: Product shall conform to all applicable provisions of the Code of Federal Regulations, the Federal Food, Drug and Cosmetic Act (FD&C Act), and all applicable state and local regulations pertaining to the preparation, packaging, labeling, storage and distribution of food products. Product shall not be adulterated or misbranded within the meaning of the FD&C Act.
All shipments shall comply with the Bioterrorism Act of 2002. This food product shall be manufactured only in FDA registered facilities that operate under FDA cGMP's. No changes to the specification are permitted without written approval from WhiteWave Foods Company Corporate R&D and Quality Assurance.
This product shall be free of hazards which could reasonably be encountered in the manufacture of the material, including but not limited to undeclared allergenic material, unlawful pesticide residues, toxins, physical hazards, biological contaminants, chemical hazards, parasites or similar defects. It shall be free of adulterants such as unapproved coloring agents.

Description: An off-white to light beige solid with melting point of 75-50°F. At temperatures above 90°F, when homogenous, the product is free flowing. Product has odor and flavor characteristic of toasted coconut.

Ingredient Declaration: Organic Coconut

The test results and specification limits indicated in the following sections shall be provided on the Supplier Certificate of Analysis for each lot of material along with a statement certifying that the material is compliant with all elements of the manufacturing facilities food safety plan. The COA shall accompany each shipment and include lot number identification and expiration date for each lot of material included on the load:

1) Microbiological Results as defined in specifications
2) Organoleptic Results as defined in specifications
3) Physical and Chemical Results as defined in specifications

All material attributes must meet specification acceptance criteria levels at time of delivery to customer.

Allergens:

Tree Nuts or Derivatives Present	YES
Coconut or Coconut Oil Present	YES

Physical Attributes:

		Acceptance Criteria					
Test	Test Frequency	Min	Target	Max	UOM	Reference Method	Comments
