COLORS, FLAVORS, PRESERVATIVES DISCLOSURE FORM

Instructions:
Please disclose any source of Dyes, Flavors or Preservatives that maybe in the product. Please utilize the Food and Drug Administration definitions for these terms. For example, exclude from disclosure ingredients that may have a preservative effect but that are not preservatives by FDA definition including common salt, sugars, vinegars, spices, or oils extracted from spices, substances added to food by direct exposure thereof to wood smoke, or chemicals applied for their insecticidal or herbicidal properties.

Specifically, please disclose all potential Dyes, Flavors and Preservatives including:

- Those directly added as ingredients
- Those that may be present as incidental additives
  - Such as a preservative in a color that in your product has no functional effect
  - Such as a part of a product that is made on the same line and that has cross contact such as from dry cleaning or product push through run sequencing
  - Such as part of rework
- Those that may be present in processing aids
  - Antifoam, Anticake, Fruit and Vegetable Washes, Decoloring Agents, etc.
- Those that may be present from no rinse sanitizers

For Cheese Products, in particular, please consider the following:

- Is the cheese made with rennet that contains artificial sodium benzoate?
- Is natamycin used during production?
- Is natamycin used during sampling?
- Does the natamycin contain artificial preservatives?
- Are other preservatives added to the cheese?
