DSM Food Specialties uses SAP as business operations management system for all production and warehouse locations. With this system DFS is able to trace all products delivered to customers, the raw materials used in production and the suppliers in case of trade materials.

This system is regularly tested in order to assure that we are able to do this according the requirements of Regulation (EC) No 178/2002.

Although diligent care has been used to ensure that the information provided herein is accurate, nothing contained herein can be construed to imply any representation or warranty for which we assume legal responsibility, including without limitation any warranties as to the accuracy, currency or completeness of this information or of non-infringement of third party intellectual property rights. The content of this document is subject to change without further notice. This document is non-controlled and will not be automatically replaced when changed. Please contact us for the latest version of this document or for further information. Since the user's product formulations, specific use applications and conditions of use are beyond our control, we make no warranty or representation regarding the results which may be obtained by the user. It shall be the responsibility of the user to determine the suitability of our products for the user's specific purposes and the legal status for the user's intended use of our products.
