- **NATURAL CHEESE FLAVORS**
- **NATURAL FLAVOR CHEMICALS**
- **PROCESSED CHEESE PRODUCT**
- **STARTER DISTILLATE**
- **VEGAN CONCENTRATES**
- **VEGAN INCLUSIONS**

  EXAMPLE: LOT: 220919 (Manufacture date: September 19, 2022)
  A six digit code is used. The first two digits (22) are the last two digits of the year of manufacture (2022). The second two-digit set (09) is the month (September) of manufacture. The last two digits are the day of manufacture (19). When more than one batch is produced in a single day, a hyphen followed by a sequential numerical designation (1, 2, 3, etc.) is used for individual batch identification.

- **SPRAY-DRIED POWDERS (DAIRY)**

  Jeneil Biotech utilizes third party contract manufactures to produce spray dried dairy powders. Each plant uses a Julian code.

  EXAMPLE #1: LOT 2262300 (Manufacture date: September 19, 2022)
  A seven digit Julian code is used for spray dried powders. The first digit (2) represents the year of manufacture (2022). The second, third, and fourth digit set (262) is the day of the 365-day calendar year. The last three digits (300) are the product code for the item.

  EXAMPLE #2: LOT 2622201300 (Manufacture date: September 19, 2022)
  A ten digit Julian code is also used for spray dried powders. The first, second, and third digit set (262) represents the day of the 365-day calendar year. The fourth and fifth digit set (22) represents the year of manufacture (2022). The six and seventh digit set (01) represents the processor system identification (e.g. dryer 01). The eighth, ninth, and tenth digit set (300) are the product code for the item.
