BIOENGINEERED INGREDIENT STATUS - USA

Wixon Item: 12011039: FRENCH DIP SEASONING

Information disclosure below is based on the National Bioengineered Food Disclosure Standard (NBFDS), released by the United Stated Department of Agriculture.

Exempt from BE labeling:

☐ This product does NOT contain Bioengineered Food(s) and contains no ingredients derived from bioengineering.

☒ This product does NOT contain Bioengineered Food(s) and contains highly refined ingredients derived from bioengineering where processing serves effectively to degrade or eliminate the DNA that was initially present.

☐ This product does NOT contain Bioengineered Food(s); records are kept for any item listed on the Agricultural Marketing Service (USDA-AMS) List of Bioengineered Foods that the source is from a non-bioengineered crop (i.e. Identity Preserved).

Requires BE labeling:

☐ This product "Contains a bioengineered food ingredient": a Multi-ingredient food that contains one or more bioengineered food ingredients.

☐ This product is a "Bioengineered Food": A raw agricultural commodity or processed food that contains only bioengineered food ingredients.

Definitions:
"bioengineering" refers to a food:

(A) that contains genetic material that has been modified through in vitro recombinant deoxyribonucleic acid (DNA) techniques; and
(B) for which the modification could not otherwise be obtained through conventional breeding or found in nature.

Excluded from the definition:

- Incidental food additives (yeasts, enzymes and other microorganisms) that are not required to be on ingredient list;
- Modified genetic material that is not detectable, including highly refined ingredients.
