Blommer CHOCOLATE COMPANY

Union City, CA • Chicago, IL • East Greenville, PA • Campbellford, ON

Memo To: Our Valued Customers

From: Blommer Chocolate Company

Date: November 2021

Re: Lot Coding Information

The Lot number will begin with a Plant letter (1) + Year (2) + Number (5):

C – Chicago, Illinois
E – East Greenville, Pennsylvania
U – Union City, California
A – Campbellford, Ontario Canada

The remaining digits of the lot code will begin with the year and all subsequent numbers represent the sequential numbering of batches for that year. For example, batch E2100178 is interpreted as follows:

The product was manufactures in our East Greenville, Pennsylvania plant, the "21" is the year 2021 (the last 2 digits of the year) and this is the 178th batch for 2021.

All packaged products will also have an open date on each carton, pail, drum, or bag in addition to the lot code.
