Blommer non hazardous SDS Statement

United States

A Safety Data Sheet (SDS) is not required for Blommer products, according to the OSHA Hazard Communication Standard, 29 CFR 1910.1200. These products are considered food as defined in 29 CFR 1910.1200(b)(6)(vi)—to which the requirements of the Hazard Communication Standard do not apply. They are also exempted from the labeling requirements of this standard under 29 CFR 1910.1200(b)(5)(iii)—which exempts foods, drugs, cosmetics, medical devices and similar items, when they are subject to the labeling requirements under the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 301 et seq.) and the regulations issued pursuant to that Act.

Canada

Canada Workplace Hazardous Material Information System (WHMIS) parallels U.S. OSHA Hazard Communication Standard. A Safety Data Sheet (SDS) is not required as the products are not classified as hazardous pursuant to the provision set forth in Canada's Hazard Products Regulations (HDR) (WHMIS 2015).

European Union

Products sold by Blommer are not classified as hazardous under Regulation (EC) No 1272/2008 (CLP), and thus, a Safety Data Sheet (SDS) is not required.
